Technical Specifications

EVERTUFF™ EXTRUDED SQUARE PROFILES

© Cosset Industries Australia Pty Ltd

Primary Application

When you need reliable, cost effective, non-toxic, crack, splinter, rust and rot free material consider Cosset's **Evertuff™ Extruded Square Profiles.**

How do you describe the primary application for a piece of string? Its uses are limited only by your requirements and imagination. Similarly the uses for Cosset's ever growing range of **Evertuff™ Extruded Square Profiles** are unlimited.

From high profile landscaping applications to unglamorous backbreaking bearer and dunnage situations, Cosset's **Evertuff™ Extruded Square Profiles** are your best solution. As it won't crack like concrete, rot like timber or rust like metal, **Evertuff™ Extruded Square Profiles** can increase your ROI significantly. Whether under or by the water, **Evertuff™ Extruded Square Profiles** are at home in marine situations. If you don't see the exact size you want let us know as we can do custom dimensions.

Features

- Recycled co-mingled material means timber-like strength with no warping.
- Order pre-cut to length and therefore no wastage.
- Drilled, planed and cut with the same tools as timber.
- Won't crack like concrete, rot like timber or rust like steel.
- Termite and white ant resistant to ensure longevity for your project.
- Superior life span with the advantage of retaining physical properties throughout entire product life.
- Non toxic – no chemicals like CCA treated timber.
- UV stabilised material guarantees longevity of product.
- Curved edges and protrusion free giving a safety first design.
- 98% recycled plastic and timber material means each metre of Evertuff™ prevents kilograms of rubbish entering landfill thus organisations can reduce their environmental foot-prints.
- Non permeable – can be fully submerged in water.
- Will not harbour vermin.
- Smooth finish and consistent colouring – unlike moulded methods, extrusion allows for a smooth, wood-like finish and is far more colour consistent.
- Has a thermal buffer and hence will not freeze over or get too hot to touch.

All about Extruded Profiles

Cosset's **Evertuff™ 98% Recycled Wood Plastic Composite Extruded Profiles** are a breakthrough for recycling and a win for reducing landfill. Using new technology, recycled plastic is compounded with waste wood and then continuously extruded through a die-cut profile – meaning it can be produced in any length up to 3000mm. The result is a far more cost effective and considerably stronger section than 100% recycled plastic alone.

Options

- Available in standard charcoal only
- Available in lengths up to 3000mmm
- Available in 4 size configurations

Models

Model Code (ES)
Dimensions *Refer to D Chart below*
Section Length (BL) *Specify up to 3000mm*

Example :

Cosset-ES-A-1000
Cosset 40x40mm profile
1000mm long

D Chart

Model Code	D-Code	Height (mm)	Width (mm)	Max Section Length (mm)	Weight (kg/m)
ES	A	40	40	3000	1.62
ES	F	100	100	3000	10.15
ES	P	125	125	3000	15.85
ES	G	150	150	3000	22.83

How To Specify :

COSSET - ES - A - BL

- COSSET: Manufacturer
- ES: Model Code
- A: D-Code
- BL: Section Length
