Primary Application

Square and rectangle **Tree Stakes & Pegs** from Cosset Industries Australia Pty Ltd are an easy to install, robust and long lasting alternative to our precious hardwoods.

Unlike treated wood, no poisonous chemicals will leach into your soil. Also, when in use they will not rot or injure staff and public with potentially dangerous splinters. Cosset **Tree Stakes & Pegs** will not attract or be attacked by White Ants or Termites and are also ideal for the application of staples and screws for fastenings and fixtures.

Cosset's **Tree Stakes & Pegs** can actually assist the healthy growth of sapling roots by flexing naturally rather than breaking off and damaging the shrub in strong winds. The smooth surface also reduces scuffing of trunks and can be removed from a planting without catching and damaging shrub roots.

Research shows that hardwood stakes are really only good for one or two plantings. Cosset's **Tree Stakes & Pegs** can be used time after time. Over multiple seasons plantings, Cosset **Tree Stakes & Pegs** will actually save the end user money, outlasting hardwood stakes, planting after planting.

Features

- Manufactured from recycled timber and recycled plastic to prevent warping
- Corrosion, salt, White Ant and Termite resistant
- Splinter free
- Can be sawn, drilled and nailed
- Suitable for shrubs, trees and markers
- Each Tree Stake & Peg purchased prevents rubbish from entering landfill thus organisations participate in reducing their environmental footprint
- UV stabilised material guarantees extremely long life and product appearance.

All about Extruded Profiles

Cosset's **Evertuff™ 98% Recycled Wood Plastic Composite Extruded Profiles** are a breakthrough for recycling and a win for reducing landfill. Using new technology, recycled plastic is compounded with waste wood and then continuously extruded through a die-cut profile – meaning it can be produced in any length up to 3000mm. The result is a far more cost effective and considerably stronger section than 100% recycled plastic alone.

Options

- 5 standard sizes available
- 40mmx 40mm & 75mm x 45mm Stakes & Pegs are available in any length from 100mm to 3000mm all with 60° angle cut
- Stakes & Pegs available in standard charcoal only

Models

Model Code (STS) *Square*
Model Code (RTS) *Rectangle*
Dimensions *Refer to D Chart below*
Section Length (BL) *for 40mm x 40mm & 75mm x 45mm specify length between 100mm and 3000mm*

D Chart

Model Code	Width (mm)	Depth (mm)	Length (mm)	Max Length (mm)	Weight (kg)
STS-A	24	24	1200	1200	0.6
STS-B	28	28	1800	1800	0.9
STS-C	40	40	1000	3000	3.43 (kg/m)
RTS-D	75	45	1000	3000	1.62 (kg/m)
